

PDST Primary STEM Team presents

Linking Mathematics with Unplugged Coding

Join the PDST Primary STEM team for Linking Mathematics with Unplugged Coding this May. Our 2-hour workshop will explore the links between unplugged coding, computational thinking and the Mathematics curriculum. The workshop will include practical ideas and resources that can be used at all class levels and in all school contexts. This course does not require any prior knowledge or experience of coding in order to participate. Book now to attend the workshop on any of the dates below.
